

LUNAWOOD

Spruce

# Lunawood Spruce

Lunawood Thermowood Spruce and Pine products offer the same high quality. The difference lies in their visual aspects.

Where there are large knots with standard intervals in pine, the knots in spruce are smaller and more scattered.

Project Ö, Finland

Architect: Aleksi Hautamäki

# Technical benefits

- The large proportion of heartwood allows to use the sap side as using side
- Straight grain structure of spruce reduces de-lamination
- Small knot size
- The long live-knotted section of the stem enables wider dimension

	Product name	Species	Length (m)	m / m²	
	Luna TGV 19x140	Nordic Spruce	3,6–5,1	7,69 m	
	Luna Layer 19x142 Brushed	Nordic Spruce	3,6–5,1	7,46 m	
	Luna Layer 19x188 Brushed	Nordic Spruce	3,6–5,4	5,55 m	
Hidden Nailing Products					
	Luna Pure HN 20x142	Nordic Spruce	3,6–5,1	8,26 m	
	Luna Bevel HN 26x142	Nordic Spruce	3,9–5,4	8,26 m	
	Luna Trim HN 20x142	Nordic Spruce	3,6–5,1	8,10 m	
	Luna Trim HN 20x142 Brushed	Nordic Spruce	3,6–5,1	8,10 m	
	Luna Triple 32x140	Nordic Spruce	3,6–5,4	7,57 m	
	Luna Duple 32x140	Nordic Spruce	3,6–5,4	7,57 m
